William Dillin M.D.

Spine Surgery and Spine Medicine Consultant

The concepts of Evidence Based Medicine have been the cornerstone of Dr. Dillin’s education during his spine surgery fellowship in Neurosurgery and Orthopaedic Surgery and the format for decision making in his subsequent practice.

The critical analytic features inherent in the ‘best evidence’ approach to patients have permeated his writing and his lectures, allowing flexible adaptation as the science has changed. The combination of logical clinical analysis based on these principles, and twenty five years of experience exclusively devoted to spine surgery and spine related problems, allows specialty focus on any Independent Medical Evaluations or Medical-Legal Reviews.

William Dillin, M.D. is a spine surgery and spine medicine consultant at the Kerlan-Jobe Orthopaedic Clinic. The Kerlan-Jobe physicians serve as consultants to the Los Angeles Rams, Los Angeles Dodgers, Los Angeles Kings, Los Angeles Sparks, Los Angeles Angels of Anaheim, Anaheim Mighty Ducks, Loyola Marymount University and USC Trojan Football.

33 years experience working in psychiatric hospitals, chemical dependency treatment facilities, nursing homes, community mental health centers, and office-based private practice of adolescents and adults with a wide range of psychiatric illnesses and addiction issues. Currently in active practice with a unique ability to perform completely private evaluations in security-sensitive circumstances. Routinely contacted directly to arrange and coordinate independent evaluations, meet with clients without involving others, and can perform evaluations in anonymous locations when necessary. Reports are completed offline without involving any third party in the process (without answering services, recording devices, third party testing, EMR, secretarial/support staff or coordinators, transcriptionists, etc.) ensuring complete privacy throughout the IME process.
